

USER MANUAL AND SAFETY DATASHEET

KKSB Raspberry Pi 4 Case

EAN:7350001160627

Read before use

This document contains important technical and safety information about the device, and its safety use and installation

⚠️ WARNINGS! WARNING: CHOKING HAZARD-SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS

Product Introduction

The KKSB Raspberry Pi 4 case is made of a powder-coated steel cover and anodised aluminium base, this compact Raspberry Pi 4 enclosure provides reliable protection for your board while maintaining a sleek and stylish look. The case has ample space for a passive heatsink or an active fan with a heatsink, providing optimal cooling for your board. This is especially important for applications that require heavy usage or prolonged periods of operation, such as running a media server or building a retro gaming arcade. The case also has space for a PoE HAT, allowing for easy Power over Ethernet capabilities. This is a great feature for projects that require a wired network connection such as building a NAS (Network Attached Storage) or a CCTV security system.

Heatsink, Fan, or PoE HAT are NOT included.

Standards for Inclusion: RoHS Directive

This product meets the requirements of the RoHS Directive (2011/65/EU and 2015/863/EU) and the UK RoHS Regulations (S.I. 2012:3032).

Disposal and Recycling

To protect the environment and human health, and to conserve natural resources, it is important that you dispose of the KKSB Cases responsibly. While this product does not contain electronic components, proper disposal is still essential to minimize environmental impact.

- Do not dispose of the KKSB Cases as unsorted municipal waste.
- Take the case to recycling facilities that accept metal or plastic materials and can properly process the case.
- Do not incinerate or dispose the module in regular household waste.

By adhering to these disposal and recycling guidelines, you can help ensure that the KKSB Cases is disposed of in an environmentally responsible manner.

⚠️ WARNING! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
