

USER MANUAL AND SAFETY DATASHEET

KKSB Arduino UNO Rev3, Mega Rev3 Case with Space for Arduino Ethernet Shield (Tall Version)

EAN:7350001160955

Read before use

This document contains important technical and safety information about the device, and its safety use and installation

⚠️ WARNINGS! WARNING: CHOKING HAZARD-SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS

Product Introduction

This KKSB case has been designed for Arduino Mega Rev3 and UNO Rev3 and has space for Arduino Ethernet Shield. This 2-part case was developed in Sweden and is taller than previous versions, so as to be able to accommodate the Ethernet shield as well. This case has pre-cut side walls, which you can move or remove entirely, so as to make room for further Arduino shields. The bottom of this Arduino case with space for Ethernet Shield comes with 4x rubber feet. These feet provide stability to the case on different surfaces. You can also attach the KKSB DIN Rail Clip with this case through the precut holes at the bottom. There are also 2x wall-mounting holes to fix the case wherever you want.

This case is NOT compatible with Arduino UNO Rev4 and Arduino Mega Rev4.

Detailed Product Information

Standards for Inclusion: RoHS Directive

This product meets the requirements of the RoHS Directive (2011/65/EU and 2015/863/EU) and the UK RoHS Regulations (S.I. 2012:3032).

Disposal and Recycling

To protect the environment and human health, and to conserve natural resources, it is important that you dispose of the KKSB Cases responsibly. This product contains electronic components that can be harmful if not disposed of properly.

- Do not dispose of the KKSB Cases as unsorted municipal waste.
- Take the module to a designated electronic waste (e-waste) recycling facility.
- Do not incinerate or dispose the module in regular household waste.

By adhering to these disposal and recycling guidelines, you can help ensure that the KKSB Cases is disposed of in an environmentally responsible manner.

⚠️ WARNING! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
