#### EAN:7350001161617

#### **Read before use**

This document contains important technical and safety information about the device, and its safety use and installation

WARNINGS! WARNING: CHOKING HAZARD-SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS

### Product Introduction

KKSB Arduino UNO R4 Project Case, a sturdy metal protective case designed to protect and support the functionality of your Arduino UNO R4 Minima and Arduino UNO R4 WiFi microcontrollers. The transparent cover facilitates visual inspection of the board, LEDs, and connections without the need for lid removal. The walled structure is constructed from sandblasted anodised black aluminium, while the bottom is made from rigid, powder-coated black steel, providing stability and longevity.

## **Standards for Inclusion: RoHS Directive**

This product meets the requirements of the RoHS Directive (2011/65/EU and 2015/863/EU) and the UK RoHS Regulations (S.I. 2012:3032).

## **Disposal and Recycling**

To protect the environment and human health, and to conserve natural resources, it is important that you dispose of the KKSB Cases responsibly. While this product does not contain electronic components, proper disposal is still essential to minimize environmental impact.

- Do not dispose of the KKSB Cases as unsorted municipal waste.
- Take the case to recycling facilities that accept metal or plastic materials and can properly process the case.
- Do not incinerate or dispose the module in regular household waste.

By adhering to these disposal and recycling guidelines, you can help ensure that the KKSB Cases is disposed of in an environmentally responsible manner.

**WARNING!** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
