EAN:7350001162188

Read before use

This document contains important technical and safety information about the device, and its safety use and installation

⚠️ WARNINGS! WARNING: CHOKING HAZARD-SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS

Product Introduction

The KKSB Arduino Uno Q Case - Clear Polycarbonate Top is a compact, protective enclosure designed specifically for the Arduino Uno Q. With a clear, crack-resistant polycarbonate lid and a robust metal base, the case combines visibility, durability, and professional mounting options for both industrial and home environments. The clean, minimalistic rectangular design with rounded corners makes the case suitable for permanent installations, development setups, and production systems.

The polycarbonate material is designed to allow wireless signals to pass through without Wi-Fi or Bluetooth signal loss, making the case suitable for wireless applications. When used with boards featuring a display, the screen remains clearly visible through the lid.

NOTE: Arduino Uno Q and Mounting Accessories are NOT included.

Standards for Inclusion: RoHS Directive

This product meets the requirements of the RoHS Directive (2011/65/EU and 2015/863/EU) and the UK RoHS Regulations (S.I. 2012:3032).

Disposal and Recycling

To protect the environment and human health, this product must be disposed of responsibly:

- Do not dispose of this product with unsorted household waste.
- Recycle structural components (metal/plastic) at local recycling facilities.
- Dispose of electromechanical components (if applicable) through designated electronic waste (e-waste) collection points.
- Always comply with applicable national and regional waste disposal regulations.

For further guidance, consult your local waste management authority.

⚠️ WARNING! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
