

USER MANUAL AND SAFETY DATASHEET

KKSB Arduino Uno Q Project Case

EAN:7350001162195

Read before use

This document contains important technical and safety information about the device, and its safety use and installation

⚠ WARNINGS! WARNING: CHOKING HAZARD-SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS

Product Introduction

The KKSB Arduino Uno Q Project Case is a tall, flexible enclosure designed for advanced Arduino projects that require additional space, expansion boards, and custom wiring. With a clear polycarbonate lid and a robust metal construction, the case is ideal for both industrial installations and home or development environments. Its extra internal height and modular wall design make it especially suitable for projects using HATs, Ethernet boards, or custom electronics.

The polycarbonate lid is optimized for Wi-Fi and Bluetooth signal passthrough, ensuring reliable wireless performance. When used with Wi-Fi-enabled boards, LED indicators and displays remain clearly visible.

NOTE: Arduino Uno Q, HATs, and Mounting accessories are NOT included.

Standards for Inclusion: RoHS Directive

This product meets the requirements of the RoHS Directive (2011/65/EU and 2015/863/EU) and the UK RoHS Regulations (S.I. 2012:3032).

Disposal and Recycling

To protect the environment and human health, this product must be disposed of responsibly:

- Do not dispose of this product with unsorted household waste.
- Recycle structural components (metal/plastic) at local recycling facilities.
- Dispose of electromechanical components (if applicable) through designated electronic waste (e-waste) collection points.
- Always comply with applicable national and regional waste disposal regulations.

For further guidance, consult your local waste management authority.

⚠ WARNING! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
